Dear Graeme

**Planning and Timing Reports for the Victorian Principal Transmission System**

As you are aware VENCorp is responsible for producing a Gas Annual Planning Report (GAPR) for the Victorian Principal Transmission System. The GAPR identifies future developments of gas supplies and the transmission system over a ten year horizon.

Ahead of the release of our 2007 GAPR VENCorp has prepared a number of network planning reports to coincide with the timing of GasNet's Access Arrangement. These reports set out VENCorp's views on the optimal timing and solutions to address emerging network limitations.

I am pleased to provide you with our final copy of each of the following reports:

- Network Planning Report - T001 Sunbury (Timing)
- Network Planning Report - P001 Sunbury (Planning)
- Network Planning Report - T002 Ballarat (Timing)
- Network Planning Report - P002 Ballarat (Planning)
- Network Planning Report - T003 Northern System Withdrawal Zone (Timing)
- Network Planning Report - P003 Northern System Withdrawal Zone (Planning)
- Network Planning Report - T004 Warragul (Timing)
- Network Planning Report - P004 Warragul (Planning)
- Network Planning Report - T005 Western Transmission System (Timing)
- Network Planning Report - P005 Western Transmission System (Planning)
- Network Planning Report - T006 Pakenham (Timing and Planning)
- Network Planning Report - P007 Stonehaven (Timing and Planning)

All of these reports will be published on our website at [www.vencorp.vic.gov.au](http://www.vencorp.vic.gov.au).

Should you have any questions about any of the information contained within the reports please do not hesitate to contact Margarida Pimental on ☎(03) 8664 6570.

Yours sincerely
