

David

I refer to our discussion on Monday 20 August in which the issue of Duke Energy Australia (DEI) seeking a short extension of the final date for submission of a revised access arrangement for its Wallumbilla to Gladstone pipeline system was raised. In light of delays that DEI has experienced in finalising supporting information for its revised access arrangement, DEI wishes to formally apply for an extension until Friday 7 September 2001 of the final date for submission of the revised access arrangement.

Regards

Rob Prydon  
Duke Energy International
